OBJECTIVE

Feedback driven and open-minded artist seeking to gain industry experience in story development for animation. Looking for a position where I can contribute art, ideas, and learn new skills while acting as a positive team player.

EMPLOYMENT

Writer for FanSided July 2021 – Present

Currently writing content for FanSided's child site Netflix Life under contract. I write a variety of articles including reviews which require expert judgement. I quickly learned the exclusive interface and I manage my own time working from home.

Video Creator/Editor for RespShop Oct 2020 – Dec 2020

Contracted to film and edit promotional videos for the company. I was accountable for my own scheduling as well as keeping consistent communication with co-workers and employers.

Story/Animation for Happy Campers Jan 2019 - April 2020

Contributed in pre-production and production for my short film PrePAWsterous. Our team of eight created a 6-minute film about a mystery concerning dog treats. Everyone wore many hats for this project: mine included story, animation, clean-up, and colour design.

SKILLS

In film projects I became a point of communication between different parts of the team and a mediator during conflicts. I'm flexible with working multiple roles and have experience being in large and small team settings. I strive to give understandable and positive feedback and in turn appreciate genuine critique, as we never stop learning.

INTERESTS

I enjoy writing fiction, sketching comics, and playing video games in my spare time. I collect VHS tapes as well as old books, one of my favourites being a Japanese *My Neighbor Totoro* cassette. I also have a large plant collection and two cats that I love dearly.

EDUCATION

THE STORY SPRINT (2021)

Rad How To School

BACHELOR'S OF DIGITAL ART AND ANIMATION (2020)

DigiPen Institute of Technology

TRAVIS BLAISE MENTORSHIP (2020)
